

Maternity & Children Quality Improvement Collaborative (MCQIC) update

August 2017

MCQIC aims to support clinical teams in Scotland to improve outcomes and reduce avoidable harm by 30% in Maternity, Neonatal and Paediatric settings

Joint MBRRACE-UK, Each Baby Counts and MCQIC event

The MCQIC Maternity and Neonatal teams presented at the joint MBRRACE-UK, Each Baby Counts and MCQIC event on 22nd June. The event focused on reducing perinatal mortality. We presented on CTG and a collaborative approach to reducing neonatal mortality. The MBRRACE-UK reports are available [here](#). The reports and updates from Each Baby Counts are available on the [website](#). #perinatalscotconf

NHS Education for Scotland (NES) Grief and Bereavement

The summer 2017 edition of the NHS Education for Scotland (NES) Grief and Bereavement e-newsletter is now available. Further information can be found [here](#) and you can sign up to the newsletter [here](#).

@NES_Bereavement

Infant mortality expert webinar series by NICHQ and partners

The [six part series](#) is an opportunity for public health professionals to hear experts and influencers in the maternal and child health field share examples and best practices for supporting efforts to reduce infant mortality and improve maternal and infant health.

Events – save the dates

MCQIC are delighted to announce the dates of our next networking events. Invitations will be sent to SPSP Programme Managers shortly but in the meantime note these dates in your diary:
